ESTIMATED COST OF REPAIRS

The insured's workshop forwarded a total estimate of **N1,745,000.00** and the same was vigorously compared to the extent of damaged. Our physical inspection confirmed that the estimate was realistic in parts but inflated in prices. We discussed with the workshop manager and called his attention to the prices quoted for each item, we told him that the estimate is on the high side and we made him to understand that it will be adjusted. But he refused initially. But at the end of our discussion with him, he allowed a total reduction of **N427,000.00** from the estimate.

Details of adjustment of the motorcycle are shown below
