DESCRIPTION OF ACCIDENT

The repairer could not tell us how the accident happened. However, our physical inspection revealed that the impact of the accident damaged the under listed parts of the insured vehicle.

Damaged parts of the insured vehicle captioned above are listed below:

Rear light
Rear bumper
Rear fender

ESTIMATED COST OF REPAIRS

The insured's workshop forwarded a total estimate of **N403,000.00** and the same was vigorously compared to the extent of damaged. Our physical inspection confirmed that the estimate was realistic in parts but inflated in prices. We discussed with the workshop manager and called his attention to the prices quoted for each item, we told him that the estimate is on the high side and we made him to understand that it will be adjusted. But he refused initially. But at the end of our discussion with him, he allowed a total reduction of **N95 000.00** from the estimate.

Details of adjustment of the motorcycle are shown below
