REPAIR ESTIMATE

The repair estimate cost to the tune of **N720,000.00** forwarded by the workshop mentioned above was thoroughly examined and compared with the extent of damaged done on the vehicle and we observed that the estimate was inflated in prices but realistic in parts and inflated in prices. We therefore called his attention to the prices quoted for each item, we frankly told him that they are on the high side and they are subject to adjustment. We logically backed our argument with the current auto parts prices but he said that due to the rate at which inflation is taking place in the Market he will not be able to allow further reduction on the vehicle. After a long argument with him, he allowed a total reduction of **N223,500.00** from the total estimate.

Details of reductions are shown in the table below:
