FUEL OPERATIONS VESSEL ACTIVITIES CHECKLIST

UPSTREAM NIGERIA LOGISTICS
MOBIL PRODUCING NIGERIA ULTD

NOTE: Unless otherwise stated, all activities listed on this checklist MUST be carried out by all Fuel Operations Technician each time a vessel is boarded in alignment with the purpose of boarding the vessel.

Fuel Operations Technicians are required to use this checklist for vessel on & off hire, vessel fuel ROB verification, vessel refueling and vessel spot checks.

Sounding method: Manual ☒ Electronic ☐

VESSEL NAME: IEVOLI GREY

S/#	Activities	Yes	No	N/A	Remarks
1	Inspect all the tanks to determine quantity of fuel in tanks (to be done twice (before and after) if vessel is to be bunkered with fuel)	✓			OFF HIRE
2	Check for water in tanks	✓			
3	Identify and inspect all pipping valves leading into the storage tanks.		✓		CHECKED
4	Determine, if any by-pass valve(s) along the receiving line		✓		✓
5	Determine the location of all drain valve(s) along the receiving line in the vessel		✓		✓
6	Chain lock, use key(s) or seal(s) to seal off any by-pass valve (Applicable for fuel bunkering operations only)		✓		✓
7	Chain lock, use key(s) or seals to seal off all drain valves on the line (Applicable for fuel bunkering operations only)		✓		✓
8	Check for water in the tanks after receipt			✓	NOT BUNKERING
9	If any, inspect key(s) or seal(s) on the by-pass valve at the end of the operation (Applicable for fuel bunkering operations only)		✓		CHECKED
10	If any, inspect key(s) or seal(s) on the drain line valve if any at the end of operation. (Applicable for fuel bunkering operations only)				✓
11	Check that the vessel sounding chart carries the name of the vessel (old name of vessel is acceptable if chart is less than 5 years old)	✓			
12	Confirm that sounding chart is endorsed by Class or recognized third party	✓			
13	Confirm that the number of tanks on charts corresponds with number of tanks on the vessel's plan	✓			
14	Sounding tapes are physically inspected and in good condition.	✓
